

ALGORITHM 1: Management of patient at risk of possible COVID-19 infection

Primary Care and Laboratory Testing and Admission Criteria¹

GENERAL PRACTITIONERS

Notes:

¹ This algorithm was compiled by the members of the Scientific Advisory Committee for COVID-19

² Less common symptoms include sore throat/ dry throat/ nasal congestion/ runny nose/ anemia, headaches and gastrointestinal symptoms (vomiting, diarrhoea). Caution is required here as symptoms such as runny nose, sneezing, runny eyes, itching are most likely due to a seasonal allergy.
